“The result is a match that is more natural, more unpredictable and more engaging,” said Peter Ror. “The more expressive-looking animations and the game’s physics and animation systems now feel even more realistic with these new tools.” New Player Progressions Today's update also introduces new player progression elements for a more realistic and flexible career, along with new start experience, career management and start kits. Players also can earn achievements as they progress through the Pro Clubs and with international call ups and following a Senior Managers career path. New Player Careers Off the field and in the field, players are now able to progress and unlock new career options as they progress in their career. The new system allows players to retain and maintain their current position as well as move up and down in the ranks of the Pro Club. New Pro Clubs and Persistence New Pro Clubs are now live and players can unlock them by progressing through their career. New Pro Clubs will stay with players after unlocking through player progression, making it easy to maintain many different clubs. Pro Clubs can be filled with players from any club in the world. The team manager can assign players to their preferred clubs, but if the player isn't available they can use the Transfer Market to obtain the player. For example, a player can be busy travelling or injured and the team manager can sign a replacement player from the Transfer Market. This also allows for player promotions for future seasons. New start kits. All new kits have been added: Germany and England: The Third Kit Spain and Italy: The Second Kit France: The First Kit When starting a new career, there are two ways to start the game: A complete Career Experience, where you will play the complete life-cycle of the player's career, beginning in the youth leagues at 16 and ending with the International Soccer Experience at 30. Or, the Manager Experience, which can be accessed directly from the Main Menu. This is a limited experience where the player can be in any club to open a career. This is ideal for players to get a feel for different clubs and what they would be like to manage. On-site Pro Clubs are now included in the Career Experience New Pro Clubs can now be viewed in the on-site Pro Club section New Career Roles are now available
