The ultimate version of the original Easy English! We have redesigned the interface and added in a variety of new features which result in an improved game play experience. We have also decided to keep the price of this version at US\$2.99. We are proud to announce this new version. If you have found that we have made a mistake, and the game is not working for you, please contact us using the forums at for a full refund. Easy English is a fun way to improve your English vocabulary while also learning the English language. The game teaches English through daily vocabulary exercises. What's New in Easy English™ Platinum: Support for Apple iOS 4.3, iPhone 3GS and new iPad New elegant Mac-like user interface New improved tutorial about the game New screen with the daily vocabulary exercises New and improved Slideshow New Notes New General Discussion forum The English dictionary update feature was disabled for some languages Some new frequently used words were added Some spelling mistakes were corrected A lot of design and navigation improvements and bug fixes What's New in Version 1.3.1: The English Dictionary has been updated and the Language can be changed by the user Slideshow showing the opening screen has been added. An interesting feature is the quiz. Some new frequently used words were added Some spelling mistakes were corrected A lot of design and navigation improvements and bug fixes What's New in Version 1.3.2: The English Dictionary has been updated and the Language can be changed by the user Some new frequently used words were added Some spelling mistakes were corrected A lot of design and navigation improvements and bug fixes What's New in Version 1.3: First major update ever for Easy English. We decided to add this incredible feature that uses the built-in microphone on your iPhone, iPad or iPod touch. When you're recording a recording, you hear the English phrases as they are spoken by a native speaker. The way it works is that, once you start a recording, the application will take your iPhone, iPad or iPod touch (depending on what device you use) and will use it as a microphone to detect English phrases. Our software converts the audio into text using a speech recognition software which is why you hear your phone say the English text instead of you hearing the real English phrases. You can now select words from this list and use them to feed the game. You will be able to

Builder Kaweco Caramel Kaweco Linotyper Hand-Held Kaweco's CaraMatic series grasps the aesthetics of a key that's actually a key holder. The CaraMatic is polished and drilled and is designed to fit into the "cylinder" on your pint. It has a band that stretches around your wrist instead of a plain oval and a rubber band attachment. Choose your favorite font and size, then design your own logo with a picture or words. The Kaweco Schoolbook Natural's profile is slightly angled, giving it a distinctive look. The lettering is done by hand and the book resembles an open book with vertical pages. It is a heavy paper for exterior use. Some ink shows through on the back cover, making it look dull. The Kaweco Schoolbook Platinum's profile is very close to its original profile. The leaves are a little thinner. The Kaweco Schoolbook Gold's profile and lettering have a little more variety in the first three letters than the Schoolbook Natural. The lettering is also thicker and has more of a vertical guide line than the Schoolbook Natural. This is not your conventional book for children, but something that should be used by teachers to develop children's handwriting and direction recognition skills. The cover is decorated with a fictitious story including the letters J, E, K, O and S. All books are made to order, for the lettering includes a specific true sign. Every option is standard: The thickness of the paper used is specified in the description. Transparent paper; matte paper for industrial use; plain paper in A4 or A3 size is included. If only the number of characters is specified, it means that every book is available with only a certain quantity of characters (A4: 20 to 50; A3: 30 to 60). If the paper types are not specified, all the standard papers are available. The options "A4 (two-color printing)" and "A4 (two-color printing)" are available. These books are printed with two colors in two different techniques. The "A4 (two-color printing)" option uses compact printing with colored inks. The "A4 (two-color printing)" option uses lithographic printing with colored ink. The options "Black Binder" and "Brown Binder" are not included. The options "Rocked Binder" and
