What are the reasons and why this class is not recommended? A: The enumerator (i.e. an instance of System.Collections.Generic.IEnumerator) is itself a thread-unsafe type. If you use a type which contains a IEnumerator as a field, that type must use Invoke to access the enumerator's Current property, which is the same as another thread accessing the field. For more info, see my article - Is IEnumerator thread-safe?. Q: Remove Parent div after child div is deleted I have a jquery function that removes a specific div: function delete_company(id,company_

Windows Server 2012R2, Server 2016: Â· Configure File and Printer Services. Faronics Insight is an effective classroom management software that.Q: can I use one user id in different databases My

server has multiple databases. I want to use one of the user id that I have created in one db in the other but I'm getting exception saying that duplicate value # My user id is 23 insert into TestUserInfo (Username) values ('val') # I want to use this user id in the other databases. insert into TestUserInfo (Username) values (23) I'm using SQL Server 2012 A: No, you can't insert into table where you're using same identity for row. SQL Server increases Identity by 1 after each INSERT into table, but cannot increase identity further than 36, so no, you can't use same identity in multiple databases. You should assign same identity to multiple users. Use master database for creating Identity, assign identity from 2nd to 36th users and insert data into tables that user currently has primary permissions. Sunday, May 24, 2011 Sushi and Spring This past Saturday afternoon was filled with a bit of a spring fling. We had the back porch to ourselves and it was warm enough to have the windows open, so we went a little overboard on the sushi. So far it has been another warm spring here in the South. I was a little concerned at first, because like many of you I've been worried about the climate change. However, since we have had the snow and then the ground freeze and now the thaw, and I've seen all the puddles where the snow was, it seems like things are returning to normal. I wasn't really sure how we'd manage to escape the snow and cold for an extended period of time. I think that just the opposite has happened. I think it will
