Get a fabulous life simulator in Best Life Simulator mobile game Best Life Simulator has been created in order to help you change your life, as well as your environment. In this, this game is based on real life, a true life simulator. We created it precisely so you will go through the life of a player character in the adventure of a player in the game for you to feel the situation that happens to you in real life. The game is based on "Swedish Societies" - the individual situations to life that you have to cope with, and that gives each player the opportunity to create his or her own particular life. You may be a doctor or lawyer or artist. You can own houses, or you can live in a bare shack. The most important thing is that the game will help you and many other people like you to improve themselves. Your development depends on his experiences in life. In this game, the levels of difficulty are very high, and each player will be challenged and surprised each and every time. Let's consider, for example, that one day you run into a flower by accident. You gather it for a friend to give him a bouquet, and what happens? He immediately throws away, saying that the flower is "dead." You then realize that there are more people who do not understand flowers and that you can not flower every day. After you gain more experience, you understand that many things are living in the world. For example, air, rocks and clouds. The game at your disposal, you can see a list of things and they will help you when interacting with them in the game. When you see the board for the first time, the game will give you such things as garbage, bench, street, transition, house, shop, school, parking lot and office. Like a building, some of them you can build, but not all of them, as not everything can be implemented in the game. Game experience and discussion in Best Life Simulator You are a life simulator. You live in a house, just like you can in real life. At the beginning of the game, you have a tab for a random generator, in which there are ten options. Which one will you be? Will you like to be: a student, a teacher, a worker, a farmer, a miner, a cook, a musician, a fisherman, a doctor or a policeman? Perhaps you want to be: a bartender, a musician, a snowboarder or a TV presenter? Will you like
