

Youtube Ipa Ios 9.3 5 Download

How to Download and Install YouTube IPA for iOS 9.3.5

YouTube is one of the most popular video-sharing platforms in the world, with millions of users watching, uploading, and sharing videos every day. However, if you have an older iPhone or iPad running iOS 9.3.5, you might have trouble accessing the latest version of the YouTube app from the App Store. This is because YouTube requires iOS 11 or later to run, which means your device is not compatible.

Fortunately, there is a way to download and install YouTube IPA for iOS 9.3.5, which is an iOS application file that contains the YouTube app. By installing an IPA file, you can bypass the App Store restrictions and enjoy YouTube on your device. In this article, we will show you three methods to download and install YouTube IPA for iOS 9.3.5, without jailbreaking your device or using iTunes.

Method 1: Use Install On Air web service to install IPA on iPhone without jailbreak

One of the easiest ways to install IPA on iPhone without jailbreak is to use an online web service called Install On Air. This service allows you to upload your IPA file and generate a link that you can open on your iPhone web browser to install the app. Here are the steps to use Install On Air:

1. Go to <https://www.installonair.com/> on your computer and click on "Upload" button.
2. Select the YouTube IPA file that you have downloaded from a reputable source (such as <https://archive.org/details/youtube-ipa-collection-1.0.0-10.38.5>) and click on "Open".
3. Wait for the upload to finish and copy the link that appears below the file name.
4. Open the link on your iPhone Safari browser and tap on "Install" when prompted.
5. Go to Settings > General > Device Management and trust the developer profile that contains the YouTube app.
6. Launch the YouTube app from your home screen and enjoy watching videos.

Method 2: Use iFunbox program to install IPA on iPhone with computer

Another way to install IPA on iPhone with computer is to use a free program called iFunbox, which lets you transfer files between your computer and your device. You can also use iFunbox to install apps from IPA files without iTunes. Here are the steps to use iFunbox:

1. Download and install iFunbox from <https://www.i-funbox.com/en/> on your computer.
2. Connect your iPhone to your computer using a USB cable and open iFunbox.
3. Click on "My Device" tab and then click on "Apps" icon.
4. Click on "Install App" button at the top and select the YouTube IPA file that you have downloaded from a reputable source (such as <https://archive.org/details/youtube-ipa-collection-1.0.0-10.38.5>) and click on "Open".
5. Wait for the installation to complete and disconnect your device from your computer.
6. Go to Settings > General > Device Management and trust the developer profile that contains the YouTube app.
7. Launch the YouTube app from your home screen and enjoy watching videos.

Method 3: Use AltStore app to install IPA on iPhone without computer

The third method to install IPA on iPhone without computer is to use an app called AltStore, which is an alternative app store that lets you sideload apps from IPA files without jailbreak or Apple ID. AltStore works by creating a local server on your computer and signing the apps with your Apple ID. Here are the steps to

use AltStore:

1. Download and install AltServer from <https://altstore.io/> on your computer.
2. Connect your iPhone to your computer using a USB cable and open iTunes.
3. Enable Wi-Fi sync for your device in iTunes and make sure both your computer and your device are on the same Wi-Fi network.
4. Open AltServer on your computer and click on the AltServer icon in the menu bar.
5. Select "Install AltStore" and choose your device from the list.
6. Enter your Apple ID and password when prompted and wait for AltStore to be installed on your device.
7. Go to Settings > General > Device Management and trust the developer profile that contains AltStore.
8. Launch AltStore from your home screen and tap on the "Browse" tab.
9. Search for YouTube IPA file that you have downloaded from a reputable source (such as <https://archive.org/details/youtube-ipa-collection-1.0.0-10.38.5>) and tap on "Get".
10. Enter your Apple ID and password again when prompted and wait for YouTube to be installed on your device.
11. Launch the YouTube app from your home screen and enjoy watching videos.

Conclusion

In this article, we have shown you three methods to download and install YouTube IPA for iOS 9.3.5, without jailbreaking your device or using iTunes. You can use any of these methods to enjoy YouTube on your older iPhone or iPad, as long as you have a reliable internet connection and enough storage space. However, keep in mind that these methods are not official or supported by YouTube or Apple, so you might encounter some errors or bugs while using the app. Also, make sure you download the IPA file from a trustworthy source, as some files might contain malware or viruses that can harm your device.

YouTube is a great app that lets you watch, upload, and share videos of various genres, topics, and categories. You can also use YouTube to learn new skills, discover new music, follow your favorite creators, and more. Some of the features and benefits of YouTube are:

- You can watch videos in different resolutions, from 144p to 4K, depending on your device and internet speed.
- You can create playlists of your favorite videos and watch them later or offline.
- You can subscribe to channels that interest you and get notified when they upload new videos.
- You can comment on videos and interact with other users and creators.
- You can like or dislike videos and give feedback to the creators.
- You can upload your own videos and share them with the world.
- You can monetize your videos and earn money from ads, memberships, merchandise, etc.
- You can join YouTube Premium and get access to ad-free videos, background play, offline downloads, YouTube Music, YouTube Originals, etc.

FAQs

Q: How do I update YouTube IPA for iOS 9.3.5?

A: You cannot update YouTube IPA for iOS 9.3.5 from the App Store, as it is not compatible with your device. However, you can check for updates from the source where you downloaded the IPA file, or use one of the methods above to install a newer version of the IPA file.

Q: How do I delete YouTube IPA for iOS 9.3.5?

A: You can delete YouTube IPA for iOS 9.3.5 like any other app on your device. Just tap and hold on the app icon until it wiggles, then tap on the "X" button and confirm. Alternatively, you can go to Settings > General > iPhone Storage > YouTube and tap on "Delete App".

Q: How do I fix YouTube IPA for iOS 9.3 5 not working?

A: If YouTube IPA for iOS 9.3 5 is not working properly on your device, you can try some of these troubleshooting steps:

- Make sure you have a stable internet connection and enough storage space on your device.
- Restart your device and try launching the app again.
- Clear the app cache by going to Settings > YouTube > Clear Cache.
- Reinstall the app using one of the methods above.

Q: How do I sign in to YouTube IPA for iOS 9.3 5 ?

A: You can sign in to YouTube IPA for iOS 9.3 5 with your Google account, just like you would on the official app. However, you might encounter some issues with the sign-in process, such as an error message or a blank screen. To fix this, you can try some of these solutions:

- Make sure you have the latest version of the IPA file installed on your device.
- Go to Settings > Safari and clear your browsing history and cookies.
- Go to Settings > YouTube and enable "Allow YouTube to access" for Safari.
- Go to Settings > YouTube and disable "Restricted Mode".
- Try signing in with a different Google account or creating a new one.

Q: How do I download videos from YouTube IPA for iOS 9.3 5?

A: You cannot download videos from YouTube IPA for iOS 9.3 5 directly, as this feature is only available for YouTube Premium subscribers. However, you can use some third-party apps or websites that allow you to download videos from YouTube and other platforms. Some of these apps or websites are:

- <https://www.documentsbyreaddle.com/>: A file manager app that has a built-in browser and downloader.
- <https://www.videoder.com/>: A video downloader app that supports multiple formats and resolutions.
- <https://ytmp3.cc/en13/>: A website that lets you convert and download YouTube videos as MP3 or MP4 files.
